HealtheConnections™ is a Regional Health Information Organization (RHIO), which is a secure, electronic health information exchange that gives authorized medical providers access to essential patient information such as test results, lab reports, radiology results, medication history, insurance eligibility, and more. People often visit many different offices, physicians and other providers when getting help with a medical condition. With HealtheConnections™, patient information goes where they go. That helps doctors to make more informed decisions about care and treatment with accurate, up to date information. It also helps to eliminate repeated testing, allows for easier second opinions, reduces the risk of adverse drug reactions, and minimizes errors in reading handwriting and transcriptions. By allowing providers to work more efficiently, HealtheConnections™ can help moderate the growing cost of health care.

Our Responsibilities

- We are required by law to maintain the privacy and security of your protected health information.

- We will let you know promptly if a breach occurs that may have compromised the privacy or security of your information.

- We must follow the duties and privacy practices described in this notice and give you a copy of it.

- We will not use or share your information other than as described here unless you tell us we can in writing. If you tell us we can, you may change your mind at any time. Let us know in writing if you change your mind.
